

HOLIDAY HOMEWORK FOR PARENTS

- Have at least two meals together with your children.
 - Share stories about your childhood and your family history.
 - Water is precious. Encourage your children to save water.
 - All bottles which are kept in the refrigerator should be filled by them.
 - Let them play games outside and get as much as physical exercise as possible.
 - Keep your children away from all screens including T.V., Computer, tablets and mobile phones.
 - Encourage your children to read a story everyday.
 - Visit the grandparents and let your children bond with them. Love and emotional support is very important. Click snaps with them.
 - Encourage your children to plant a tree.
-

History:

Collect information on the transformation from the invention of wheels in the Neolithic Age to the present age.

They will also learn how to draw pictures related to the topic.

(This project will be done in class)

Geography

Collect information on the various forest products which we use in our day to day life. You will also learn to make a beautiful poster on the topic.

(This project will be done in class)

Science

Complete the process of germination. Follow the guidelines given in class.

English language
